

Many qualities of copper are found in iron purified by a German process. Contrary to the popular opinion that elephants never forget, it has been found that they do. Winds carried \$25,000,000 worth of fertile soil from Texas to Nebraska in one year.

## Mills Approved By Supervisors For World Fair

Peninsula Board Votes To Seek Exposition For S. F. Airport

Mills Field was endorsed by the San Mateo County Board of Supervisors Monday as the site for the proposed 1938 World's Fair to be held by San Francisco.

Board Clerk Emore B. Hinman was ordered to send an immediate wire to San Francisco so that the metropolis' board would be aware of the peninsula's action when the matter comes up at 2 p. m. today.

In a resolution presented by Supervisor Albert Witt, Colma, who had conferred with Supervisor Andrew Gallagher, San Francisco, the board voted its belief that the mainland offers a better chance to finance the exposition than the Yerba Buena site.

The island site, supported by exposition directors headed by Leland Cutler, Woodside, is held to be in the fog belt and subject to cold winds that would discourage attendance.

**EASILY ACCESSIBLE**  
The resolution, prepared by the Menlo Park Chamber of Commerce and signed by J. H. Sullivan as president, declared that Mills Field is easily accessible by trolley, train, stage and boat and air service.

It is held to offer an easy access to the interior and Eastbay points over the Dumbarton and San Mateo bridges.

Hetch Hetchy water and power will make it possible to provide these two much-needed services at great reduction, it is stated.

New ground which would be created at Mills Field by dredging would make additional lands for eventual railroad extensions and airport development, as well as creating an aquatic harbor, it is explained.

Supervisor John Poole, Redwood City, seconded the motion naming Mills Field as the board's choice.

Congressman John J. McGrath of San Mateo county is back of the mainland location.

**PRIOR DIVORCE FINAL**  
Superior Judge Maxwell McNutt today had granted a final decree of divorce, on grounds of extreme cruelty, to Ruby R. Prior, publisher of the Belmont Courier, against Charles H. Prior, editor of the Burlingame Advance-Star. Mrs. Prior was allowed to resume her maiden name of Ruby Adair. Both are well-known in newspaper circles.

**Arson Possibility Probed After Fire**  
WOODSIDE, March 19.—County authorities today were investigating the activities of suspected incendiaries as a result of a fire at 2:20 a. m. which totally destroyed Arlo Perry's house at the corner of Woodside avenue and San Carlos road. The loss is estimated at more than \$1000.

Perry had recently moved the house, a one-story shack, from Atherton to its location in the Woodside-Menlo Park district.

Chief Thomas Cuff of the Menlo Park Fire Department reported that several of Perry's neighbors had strenuously protested against the appearance of the house.

The Menlo Park fire apparatus was summoned to the fire after the blaze had practically destroyed the structure, he said.

**Woodhams and Layng Only School Contest**  
The only contest in the coming election for the Redwood City school boards will be between Clifton L. Woodhams, secretary of the San Mateo County Title Company, and John E. Layng, local mortician, for the position on the Sequoia high school board to be left vacant when County Executive Walter Kellogg's term expires May 1.

C. M. Duxsee has filed to succeed himself on the grammar school board, but otherwise there will be no further candidacies, it was announced this morning by C. G. Uhlenberg, clerk of the grammar school board, and W. W. Hilton, clerk of the high school board.

The election will be held March 29 at the same time as the election on the school bond issue.

## MORE HIGHWAYS STATE NEED

Motor vehicles are increasing in number more rapidly than the hard-surfaced highways which must carry them. Today's improved roads are at least six times busier than they were 20 years ago; not only are there more cars per mile, but an average car is operated more miles per day.

Automobile ownership increased 1,000,000 vehicles in 1934, in this country; but road construction lagged in most localities.

While the more advanced states have given thoughtful attention to their chief arteries of traffic, main highway systems the country over are only about one-half complete. Instead of durable surface there is found mud, or dust, or sand. Only about 5 per cent of America's rural roads are well paved.

There is need of building up the highway system to its proper place to meet the needs of the modern motorist.

### New Trial Motions Denied Nurse, Mills

Three motions seeking a new trial were denied the Mills Memorial Hospital and Nurse Anna M. MacKinnon late Tuesday by Superior Judge Maxwell McNutt, following a hearing of their application to set aside the \$12,500 verdict awarded T. J. Hallinan on charges of using a wrong injection fluid in an operation.

It was expected attorneys for the hospital and nurse would appeal the case to a higher court. Once before after a trial in 1931 they were successful in an appeal, with the result a new trial was granted, which resulted in a hung jury. In the third trial Hallinan was awarded the verdict.

Storage of water in the Bear Gulch reservoir near Atherton today reached the full capacity of 215,000,000 gallons. Connections to wells were opened to divert the surplus water available into the underground supply to assist in raising the water table in this district.

Officials of the water company pointed out that this is the same plan of conserving the surplus water as was accomplished in 1928 and 1932.

### Chamber Distributed New Prospects Cards

A meeting of the membership committee of the local chamber of commerce, now carrying on a campaign for members, was held at 4 o'clock yesterday afternoon in the chamber offices. Information was exchanged and new prospect cards were distributed. Those present were Perry Bygness, chairman; H. D. Harlis, Herman Phillips, Harold P. Anderson, Robert O'Connell Jr., B. A. Muir, W. A. McAfee, Walter Lynch, Fred Walker, E. H. Higgins, L. C. Christensen, Maj. H. W. Edmonds, Donald Sevier, E. S. Hurrell, K. W. Van Gundy and R. H. Inman.

Edward T. Harrison, president of the local chamber, and Roscoe D. Wyatt, secretary manager, were also present. Latest renewed memberships to be reported in the campaign are Upton Bros., A. S. Ligouri and W. H. Morrissey, for whom McAfee, O'Connell and Anderson, and E. H. Higgins got credit. The new members secured were the Golden State Nursery, A. P. Whitehead and the University Creamery, credited going to Harlis and Phillips, Major Edmonds, and Christensen. Dairy farmers sell milk in sheets in Denmark. The dehydrated sheet is dissolved in hot water to restore it to liquid form.

**Pattisons Denied Damages for Crash**  
After a four-day trial, a jury in Superior Judge Cotton's court yesterday afternoon returned a verdict for the defendants in Mr. and Mrs. A. J. Pattison's \$6281.85 damage suit against M. A. Cavanagh and Arthur Swan. It took the jury, of which William A. Rutherford was foreman, an hour and 16 minutes to decide to deny damages to the Pattisons, who had charged that Mrs. Pattison was injured when their machine collided with that of Swan in Belmont last April 30. Francis N. Foley was attorney for the victorious defendants in the action.

**David Solari Estate Bequeathed to Widow**  
All of the estate, valued at less than \$10,000, left by David Solari, who died here February 22, was bequeathed to his wife, Rose, it was revealed today when a petition for probate of Solari's will was filed in superior court by Mrs. Solari. Two sons, George L. and Alfred D., both of 338 Manzanita street, were intentionally omitted in the will. "I know their mother will give them assistance in case of need," the father wrote.

**FAST DRIVER FINED**  
SAN MATEO, Mar. 21.—Charged with doing 62 miles per hour in a 25-mile zone on El Camino Real, with having no driver's license and side down on his machine, William Gerrard, San Jose automobile salesman, was fined \$15 by Police Judge L. F. Kinnell. **GIVEN SUSPENDED TERM**  
SAN MATEO, March 21.—Because he allegedly struck his wife, Mona, in the eye, William Windrem of San Mateo was today sentenced by Police Judge Louis F. Kinnell to six months in jail on a charge of battery. Sentence was suspended, however, on good behavior of the defendant.

### POLICE ADOPT SECRET CODE FOR PATROLS

**Radio to Spread Net About Highways Under Plan**

Now just let a criminal try to sneak past the southern end of the peninsula! It can't be done, if plans worked out Tuesday afternoon by some 40 peace officers of Redwood City, Palo Alto, San Carlos, Atherton, Menlo Park and Los Altos materialize. For the officers, after a meeting at local police headquarters, went home with a secret coded system which, when put into effect in case of an emergency, will spread a dragnet over the entire region, which will prevent any machine traversing the roads, it is believed. The plan works like this: When any of the departments gets word of an emergency, like the recent San Quentin prison break, it immediately telephones the Palo Alto police department, home of Police Radio Station KGHK.

### Competition Lacking In Trustee Contests

With tomorrow set as the final day for filing candidacies, possibility that there would be no contests in the races for school board vacancies appeared probable today. C. M. Duxsee has filed to succeed himself on the grammar school term, while John Layng has announced his candidacy for the position on the high school board, left vacant when County Executive Walter Kellogg's term expires May 1. Election for the school board vacancies will be held March 29 in the school houses. Prospective candidates for the high school board can file with W. W. Hilton, clerk of the board, while candidates for the elementary school board can file with School Superintendent John Gill or C. G. Uhlenberg, clerk of the board. Tests made by the North Carolina department of agriculture show certain grades of cheap fertilizer contained 1,680 pounds of ordinary sand and only 320 pounds of plant food per ton.

### THE STORY OF OLD GOLD

**DON'T BE MISLED**  
We are sure you will be interested to learn that our fee in purchasing your gold, silver, etc., is far lower than anywhere in San Mateo, San Francisco, or any other place. The reason that we pay more is that we have no high rents, radio programs, or full page advertisements to pay for, which run into the thousands of dollars and which you must share in paying the bill. No doubt you know that quite a few so-called gold buyers opened up since the Government has advanced the price of pure gold from \$34.97 to \$35.00 per ounce. This firm has been in business for over forty years. When you come here you get every cent that rightfully belongs to you. You probably have heard this already from your friends who have sold their articles to us. Doubtless you have noticed advertisements in San Francisco newspapers in which some pay 25 to 30 cents an ounce for old silver. Our price for nearly a year has been 40 cents an ounce, irrespective of the condition of the articles. If, by chance, some of the articles have a resale value, we pay you 75 cents an ounce. Shop around, get your prices in San Mateo, San Francisco and elsewhere, then come here for comparison. We are sure that you will receive considerably more here for old rings, watch cases, dental and bridge work, bracelets, and countless other trinkets. You may call and have your articles appraised without any obligation to sell. It does not matter what you think is gold or silver, you may confidently rely on our honest judgment. Small amounts are appreciated as much as large amounts. When you come here, you do business with a courteous and honest person who makes each transaction a pleasure. If it does not suit your convenience to call at this office, you may phone Burlingame 162 for all information you desire. Beware of crooks! May we have the opportunity of serving you soon?

**CATTLE-GOATS! Menlo Park Protests RELIEF SOUGHT**  
Menlo Park residents just don't want any farming or any form of animal rearing in their town, it seems. First it was complaints about a resident who insisted on keeping a number of dogs on her premises. Then it was complaints about some riding stables. Now it's a dairy that's troubling half a dozen citizens in the vicinity of Block 4, Menlo Heights, which faces Pine, Manzanita and Altschell avenues. This came out here today with the filing of a protest with the board of supervisors. Ten head of cattle and two goats have been quartered on a 2-acre portion of the block in question, the protest says, and the signers maintain this is in violation of county ordinance No. 400. As a result the signers ask the board to see that the ordinance is enforced so that no detriment to value of their property will be incurred.

**Mother of Local Woman Succumbs**  
Mrs. Elizabeth B. Sanborn, 84, mother of Mrs. Lora Harwood of Redwood City, died at her Cypress avenue home in Burlingame last night. Born in Sonoma, Mrs. Sanborn, wife of the late John Sanborn, had lived in Burlingame three years. Previous to moving there she lived in Oakland 40 years. Two sons also survive. They are Robert of Fairfax and Frank of Berkeley. Funeral services will be held at 10 a. m. tomorrow from the William Crosby Funeral Parlor in Company at 160 Maple street, Burlingame. Interment will follow at Oakland.

## Mills Field Voted Wide Support Of Peninsula Cities Spokesmen

The campaign to bring the 1935 World's Fair site to Mills Field was given county-wide support at a meeting of 50 civic leaders at the Burlingame City Hall Tuesday night.

Sponsored by the South San Francisco and Burlingame chambers of commerce, the meeting was held by Harrison W. Call, president of the former, of the proposal and what had been done to date.

He was promised the support of Burlingame by Mayor Allan F. Hunt; of South San Francisco city council by Reese Lloyd; of San Bruno by H. H. Beckner, councilman, and of Redwood City by Roscoe Wyatt, who said that while he was unable to speak officially, he believed the well-known progressive spirit of Redwood City would enable him, as secretary-manager of the chamber of commerce, to assure the support of this community.

Another chamber manager, Gilbert D. Keitle of San Mateo, also assured the gathering his organization would lend its support.

It was pointed out at the meeting that if the Yerba Buena shoals site is not used, Mills Field is one of the few eligible sites for federal funds to aid the exposition because of the fact that land to get federal aid must be publicly owned. San Francisco city and county own 1100 acres at the airport, only 400 of which are used for the air field, leaving ample room for the fair.

The report that the east bay would sponsor its own fair if a mainland site on the peninsula were selected was discussed at the meeting. Opinion expressed was that this county would not enter into any acrimonious debate with any other districts over a fair site, but that the duty of the peninsula was to make available and sponsor the use of any available sites in order that the fair would be staged as planned.

East bay cities have threatened to stage their own bridge exposition if a site easily available to residents of that district is not selected.

Another meeting of representatives from each city chamber of commerce in the county was called for 10 a. m. Saturday in Burlingame, at which time a definite program for securing a mainland fair site will be outlined for presentation to the San Francisco supervisors.
